

Case History

Client: Health Protection Agency, Porton Down

Enbloc's Role : Design and Build as Principle Contractor

Scope : Multidiscipline - M&E + Construction

Facility Type : ACDP CAT3 Containment Facility

Floor Area : 35m²

Approximate Contract Value : £400k

Programme : 8 months

Project Description :

As containment suite specialists, Enbloc Ltd provided a fast-track solution to HPA for a key suite required urgently.

Enbloc Ltd designed and built the facility using glass fibre walls and ceilings offering 100% airtight construction

The dedicated HVAC system included all the necessary safety features to prevent loss of containment in all scenarios.

Key Points :

Fast-track construction

Restricted access and limited plant space

Full GRP Interior finish of containment suite.
