

GMP Pharmacy

Major Private Sector Pharmacy Manufacturing Unit

Enbloc were chosen as Principal Contractor to provide a fast track MHRA licenced pharmacy manufacturing unit. The project consisted of a major remodel of a previous facility Enbloc built for this Client.

Existing layouts were reconfigured and refinished to suit the new layout the Client required.

The facility contains extensive Grade B areas served by Grade C and Grade D support rooms.

Special features within this suite include flush display monitors, integrated / automated VHP gassing system and sample transfer system via a vacuum tube network.
