

Cannabidiol (CBD) Products

GMP Production

As CBD products are now required to be manufactured under an MHRA licence, we can offer CBD GMP manufacturing facilities. From the drying process to finished products GMP (Good Manufacturing Practice) applies.

We can offer full turnkey design and build of facilities including extraction rig interfaces.

We support clients by providing the facility validation pack (DQ,IQ,OQ) necessary for licencing.

 Our role: Design & Build Specialist Contractor	 Scope: Full turnkey Fit-Out from concept to validated completion	 Facility type: ACDP CL3 Laboratory Suite	 Programme: From 6 months	 Floor area: As per Design
