

GMP Cleanroom Suite

Clinical Biotechnology Centre Filton Expansion Facility

Enbloc were selected as the Design and Build turnkey Contractor to provide the new Clinical Biotechnology Centre Expansion Facility at the NHS BT in Filton.

This new facility provides the Client with a new, modern, flexible, well designed facility including cleanroom suites and laboratories, change rooms and office working space which is linked to the current building at the NHS BT location in Bristol.

Enbloc completed the full design, build and fit out, in collaboration with the Client, to create controlled and classified clean containment rooms on the first floor with support laboratories and offices on the ground floor.

Enbloc continue working with NHS BT with an ongoing validation and maintenance contract for this site.
