

ISO 7 Cleanroom

Formula 1 Motor Sport

Enbloc are able to carry out the design, supply and installation of ISO 7 classification Cleanrooms for the Motorsport Industry, including commissioning and validation to completion.

This will provide the client with new modern, flexible and well-designed cleanrooms.

As a Specialist Contractor, Enbloc can complete the full design, build and fit-out, in complete collaboration with the client, to create controlled and classified clean containment rooms, in as little as 6 months depending on requirements.
